

Concrete

PANORAMA & DEMINAR

Two-Day International Seminar Cum Deminar

LIVE PRODUCT DEMONSTRATION AND EXHIBITION ON

Alternative Materials and Innovative Technologies

in Concrete Construction

16th - 17th March 2021

Venue: **BMS College of Engineering**, Bull Temple Road, Bengaluru - 560 019

Organised by

INDIAN CONCRETE INSTITUTE
BENGALURU CENTRE

In association with

Department of Civil Engineering
BMS College of Engineering
Bengaluru - 560 019

SUPPORTING ORGANISATIONS

Association of Consulting
Civil Engineers (India)

Institute for Research, Development and
Training of Construction Trades and Management

Ready Mixed Concrete
Manufacturers' Association

Construction Chemicals
Manufacturers Association

Structural Engineers
World Congress

BMS College of
Engineering

LIVE STREAMING PARTNER

Alternative Materials and Technologies

In this fast developing world, it becomes very important for us as Civil Engineers, Architects and Builders to focus both on the global development and also its impact on the environment. This kind of approach leads to many innovations and researches which helps in conserving the environment without compromising on the developments. Construction industry has been associated with the materials which were being used about a century back and are still very popular. Variety of alternative building materials which are eco-friendly and sustainable are made available which provide better, efficient, durable and cost effective construction and also ensure judicious utilization of available limited resources with least possible degradation of environment.

Building materials and technologies and building practices have evolved continuously. Housing and building conditions reflect the living standards of a society. Stones, mud, thatch and timber represent the earliest building materials used for the construction of dwellings. Hardly any energy is spent in manufacturing and use of these materials for construction. Durability of the materials, directly derived from the natural materials like soil, thatch, timber etc. is questionable.

The demand for building materials has been continuously rising with the increasing need for housing both in rural and urban areas. Commercial exploitation of traditional building materials by various industries has aggravated the situation. It has, therefore become necessary to think over this problem seriously and to provide some sustainable solution to make the alternative materials available to solve the housing problem.

A large number of viable alternative building materials and technologies have been developed and disseminated in the recent times. Some of these materials are supplementary cementitious materials (SCMs) like Flyash, GGBS, Ultrafine Slag, Ultrafine fly ash, Micro silica, Metakaolin, Rice husk ash which help in partial replacement of OPC Cement. Per tonne of OPC Cement liberates about 0.6 to 0.8 tonne of CO₂ in manufacturing process contributing to 5 to 6 % of the total global CO₂ emissions and also consuming about 1.5 tonne of Lime stones from Nature. Now a days there are many Alternatives products to river sand and Aggregates

The Alternative building technologies are; Dry wall technologies, Precast products, Architectural decorative products, Stabilized mud blocks, AAC Blocks, Fine concrete blocks, Rammed earth blocks, Mud concrete blocks, Lime pozolona cement, Soil-lime plaster, Composite mortars for masonry, Composite beam and panel roofs, Reinforced brickwork roof, Ferro cement and ferroconcrete roofing systems, Geo-polymer concrete, Unreinforced masonry vaults and domes, Ribbed slab construction, Filler slab roofs, Rammed earth foundations, Reinforced block-work lintels and precast chejjas.

It is important to educate the people in the industry to bring awareness about the alternate building materials and technologies and make them to understand and adopt them in their constructions. Usage of the eco-friendly and sustainable materials will only prove to be beneficial in the future, helping the construction industry to use sustainable construction solutions and making the world a better place.

In line with the above developments ICI-BC is organizing a two days International seminar and Deminar 2021 on "Alternative materials and Technologies

THEMES

- Precast Concrete Technologies
- Green Building Materials & Eco-friendly Construction
- Waterproofing System
- Innovation in Rehabilitation & Restoration
- Smart Materials in Special Concrete – Geopolymer etc
- Equipment for Production of Special Concrete
- Admixtures for Production of Special Concrete in RMC
- Quality Practises & Testing of Concrete Making Materials
- Heritage Structures & Renovation Technologies
- Artificial Intelligence in Construction Industries
- Pervious Concrete & Decorative Concrete
- Formwork for Concrete Construction & Detailing of Reinforcement – Readymade Steel, etc.

WHO SHOULD PARTICIPATE ?

Professionals from Civil Engineering field, RMC Industry, Cement manufacturers, Construction & Chemical Industry, Material & Equipment Manufacturers, Architects and structural consultants, Decision makers from Government and Private Sectors such as Bangalore Metro, Bangalore Development Authority, Bangalore Mahanagara Palike, CPWD, PWD, BWSSB, KUIDFC, Academic and Research experts across India and Abroad.

Companies and their subsidiary services make use of these opportunities to show case their products. This kind of Deminar is the only one in India which is so popular among engineers to learn through practical demonstration about new products and technologies.

Eminent personalities in the field of Concrete Technology with a special focus on Manifestations, will be invited to deliver lectures during the seminar. This Two-day event will witness extensive participation.

The Deminars (combination of demonstration and seminar) organized by ICI provide a unique platform for learning. This time the subject "Alternative Materials and Innovative Concrete Technologies in Construction" has been chosen to provide an opportunity for the companies who are capable of enabling the production of Special Concretes to demonstrate the feasibility, the materials, procedure and care involved. This will give not only awareness but also confidence to the participants to use these special variants to their advantage.

Delegate Fee (Inclusive of GST @ 18%)

Members of ICI-ACCE-INSTRUCT	Rs 2000
Others	Rs 2500
ICI Student Members	Rs 1000
Non-Student Member / Research Scholars	Rs 1500

Registration fees for Two-day includes:-
Delegate Kit, Conference Proceeding (CD) Souvenir, Lunch-Coffee/Tea & Certificate of Participation

Sponsorship And Entitlements

PART I (Inclusive of GST 18 %)						
	Chief Patron	Patron	Associate Patron	Sponsors	Demonstrator	Exhibitor stall
Amount ₹	5,00,000	3,00,000	2,00,000	1,00,000	1,00,000	30,000
Complimentary Delegates	15	10	6	4	4	2
Exhibition Space (Stall- 3 mtrs x 3 mtrs)	2	1	1	1	No	1
Advertisement in Souvenir (Page)	Front Inner	Back Inner	Inside Full	Inside Full	Inside Full	Inside Full
Company Logo will appear in the all brochures	Free	Free	Free	Free	Free	Free
Logo Display @ Welcome Banner/ Stage backdrop	Free	Free	Free	Free	Free	Free
Distribution of Product Literatures to Delegates	Free	Free	Free	Free	Free	Free
Corporate Presentation	20 min	15 min	10 min	5 min	No	No
Product Demonstration	Yes	Yes	Yes	No	Yes	No

SUPPORTING ORGANISATION:

₹ 25,000/- (Inclusive of GST @ 18%)

Registration fees for Two-day includes: –

Complimentary Delegates – 4
Advertisement in Souvenir – One full page, Logo Display in Brochure,
Stage Backdrop & Welcome banner
To Insert Material in a Kit (Marketing Collaterals)

SOUVENIR ADVERTISEMENTS:

A Souvenir will be published on this occasion. Advertisements will be included in the Souvenir. The tariffs for the advertisements are as follows (which includes 18% GST as per Government directives)

Back Cover Page Colour	₹ 15,000/-
Front Inside Page Colour	₹ 12,000/-
Back Inside Page Colour	₹ 12,000/-
Full page Colour	₹ 10,000/-
Half page Colour	₹ 6,000/-

EXHIBITION:

Concurrently with the conference, an Exhibition & Product Demonstration is also being planned on the themes of the Conference with many exhibitors displaying the latest equipments, techniques, services and software

Note: All payments should be made in full, Cheque/DD to be drawn in favour of "Indian Concrete Institute – Bangalore Centre, Karnataka". Payments can also be made by electronic transfer. (Details given in Registration form)

For Payment through online banking, please note the following details: *Electronic Transfer: RTGS / NEFT Details :*

Account Name : Indian Concrete Institute – Karnataka, Bangalore Centre
Account No. : 04121010000530
Account Type : Current Account
Name of Bank : Canara Bank
IFSC Code : CNRB0010412
Branch Name & Address : J.C. Road Branch, Jasmine Mansion, J C Road, Bengaluru – 560 002 Karnataka.
Pan No : AAATI0256J / GSTN No : 29AAATI0256J1ZM

Organising Committee

Dr. R Nagendra
Chairman – Organising Committee

Dr. L R Manjunatha,
Chairman ICI (BENC)

Dr. R L Ramesh,
Secretary ICI (BENC)

Dr. B V Ravishankar
Principal, BMSCE

Dr. S. Muralidhara
Vice Principal, BMSCE

Dr. P Prasanna Kumar
Professor & Head - Dept of Civil Engineering, BMSCE

Dr. R V Ranganath
Professor, Department of Civil Engineering, BMSCE

Dr. Asha K
Assistant Professor, Department of civil Engineering, BMSCE

CALL FOR PAPERS

Original technical / research papers are invited to be presented either in person or through pin-up paper display. Authors are requested to send the full length paper not exceeding 6 pages, preferably by 15th June 2020. The manuscript must be in word format with ready to publish format. The papers will be subject to peer review as well as checks for plagiarism. Notwithstanding checks for plagiarism, authors shall be solely responsible to ensure authenticity and ownership of their papers. If papers do not add value or not meritorious for presentation / publication, they shall be rejected. Organisers shall not be liable for whatever & whatsoever in this regards. they will not be accepted for publication. However, authors can present papers without any assurance on publication.

- Last date for submitting Full length Paper : 15th January 2021
- Last date for acceptance communication of the Full length Paper : 30th January 2021
- Receipt of corrected papers along with authors registration: 5th February 2021

Camera-ready-proof-papers can be sent to secretary.icbc@gmail.com with a copy to ici.bglr@gmail.com. Authors presenting their papers shall register for Deminar 2021 without fail.

All the accepted full length papers will be published in NBM&CW (New Building Materials and Construction World) - a 26-year old publication (ISSN 0973 - 0591), focused on civil construction. It will also be uploaded on its web portal www.nbmcw.com, which is no 1 in construction industry as per US based rating agency (Alexa), and being visited by 200 countries.

Infra Development & Const. Equipment Magazine

ABOUT ICI (BENC)

ICI was born on 7th September 1982 with Head Quarter at Chennai:

- ICI - Members List (ALL INDIA) - 13023
- ICI - Centres List (ALL INDIA) - 44
- ICI - Student Chapters List (ALL INDIA) - 266
- ICI - Student Members List (ALL INDIA) - 9800
- ICI - Organisational Members - 350
- ICI - Corporate Video
- ICI - Student Video
- ICI - Corporate Brochure

ICI - Bengaluru Centre, Karnataka was started in the year 1984

- ICI - Life Membership (KARNATAKA): 787
- ICI - Centres : 03
- ICI - Student Chapters : 54
- ICI - Student Members : 2000
- ICI - Organizational Life Members—43
- ICI - Bengaluru Centre, is successfully being run by an able adoptive and progressive managing committee since then. It is one of the active centres which conduct several programs every year. The membership is growing progressively day by day.

OBJECTIVES

- Promote growth of concrete construction and its sub-specialization
- To disseminate information and train personnel by organizing seminars / conferences / workshops
- Training programs for Fellow Members / Students and Corporate
- Collaborate with National / International Agencies
- Identify R & D problems of practical relevance
- Arrange National and International Workshops, Conferences
- Seminars, Deminars & Exhibitions, Arrange Annual Lecture series on selected topics of relevance to Concrete Constructions
- To identify and recognize outstanding construction and outstanding performers in the field of Concrete Technology / Construction.

ICI - BENGALURU CENTRE, KARNATAKA has 54 Student Chapters

- 1 Siddaganga Institute of Technology
- 2 M.V.J College of Engineering
- 3 Bangalore University
- 4 Vivekananda College of Engineering and Technology
- 5 R.V. College Of Engineering
- 6 Global Academy of Technology
- 7 J.N.N College of Engineering
- 8 Christ University Faculty of Engineering
- 9 J.S.S. Academy of Technical Education
- 10 BMS College of Engineering
- 11 SJB Institute of Technology
- 12 PES Institute of Technology
- 13 Sri Jagadguru Chandrashekarnatha Institute of Tech
- 14 BMS Institute of Technology and Management
- 15 Sir.M. Visvesvaraya Institute of Technology
- 16 Sri Jayachamarajendra College of Engineering
- 17 East West Institute of Technology
- 18 Bangalore Institute of Technology

- 19 Tumkur
