Founded in 1982, ICI has over 14,000 professional members across India and about 350 Corporate & Institutional members. Bengaluru Centre is amongst the oldest centres. Members of ICI visit various Engineering Colleges on a regular basis as part of Industry-Academic connect initiative and to impart relevant Industry knowledge & Skill-sets to Civil Engineering Students and Faculty.

BRIEF BACKGROUND OF THE DEMINAR: DEMINAR (in full, CONCRETE PANORAMA AND DEMINAR) is an Innovative idea of Indian Concrete Institute (ICI)- Bengaluru Centre. DEMINAR (SEMINAR + LIVE DEMONSTRATION) is an BI-ENNIAL FLAGSHIP EVENT of ICI Bengaluru Centre. Since its inception about a decade ago, DEMINAR has evolved over time into the best-in-class event, propagating the Vision of ICI of disseminating knowledge and bringing the LATEST TECHNOLOGIES to the fore, in the domain of Construction and Infrastructure Industry and upskilling of its Professionals.

ABOUT THE DEMINAR-2023: DEMINAR-2023 offers unique opportunity to showcase the latest Systems, Products, Services and Materials in area of "Micro, Small, Medium & Large Construction Technologies and Innovations". The Delegates can either view, in person, the live demonstration happening adjacent to the venue which is simultaneously being live streamed into the Auditorium. This is a unique opportunity for all those from the Construction and Infrastructure sector to show case their latest technologies/Systems as well as to upskill on latest Technological developments in Construction Sector.

THEME: The theme chosen in this edition of DEMINAR-2023 is: "MICRO, SMALL MEDIUM & LARGE CONSTRUCTION TECHNOLOGIES AND INNOVATIONS". Large constructions that we normally come to our notice such as Highways, Bridges, Dams, Airports, High-rise Buildings etc., though massive, constitute only about 3% of the entire construction Volume in our country; whereas about 97% of construction opportunities are in Micro-Small-Medium spaces such as Individual Residential Buildings, Commercial and industrial buildings etc., which offer ample opportunity not only in Employability but in Entrepreneurial opportunities. Large corporates also can exponentially enhance their business offerings and Technological innovations through collaborations in these sectors. There is a huge thrust being given by the Government, as well as entire ecosystem surrounding this theme, for further opportunities. Hence, it is imminent that this sector deserves the focus that it is entitled to. Thus the theme of this DEMINAR - 2023: "MICRO, SMALL MEDIUM & LARGE CONSTRUCTION TECHNOLOGIES AND INNOVATIONS"
