About InfinityPMC

Our Vision

To be the best Project Management Solution Provider in the markets where we operate.
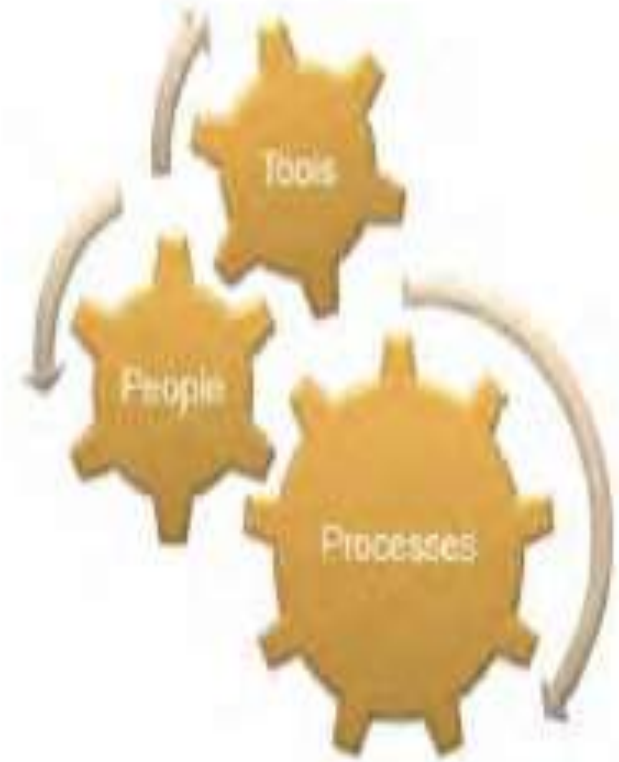

Our Mission

To Provide, Software, Training and Professional services in line with our vision, to our customers, and create value, using the spectrum of Project Management, Asset Management, Business Management knowledge and experience.

3 stage approach

People- Provide skilled people and also train the people on the skill required for doing project management

Tools: - To Provided best in class software to address the various areas of project management Life cycle

Process: - Project Management process and its alignment with the objectives of the organisation

InfinityPMC - Experience our strength

- ➢ **Combined experience of 30+ years in Oracle Primavera Project management**
- ➢ **3000+ hours of training experience**
- ➢ **Experience in handling 100+ customers**
- ➢ **Focused only on Project Management domain.**
- ➢ **Experience in handling 50+ colleges and universities for Implementing Project Management**
- ➢ **Certified Implementation specialist team for MSProject, Primavera and CostX.**
- ➢ **Offering Project Management services to industries like Real Estate, EPC, Infrastructure, Oil & Gas and Public sectors projects.**

Technology Partners

Solutions Offering for Industries

|	
ORACLE PRIMAVERA	World's leading Project management solution offering Enterprise Project Portfolio ,Risk and Resource management. Prefer solution for major Infrastructure projects like Metro rail, transporation and EPC segment
CostX	THE COMPLETE 3D/BIM AND 2D ESTIMATING SOLUTION. CostX® is a powerful project costing tool that enables estimators to utilise the most advanced electronic takeoff system while embracing BIM to deliver better results to clients
TURBO | CHART	Turbo Chart focuses on producing Time Location charts based on your existing schedule data, as easily as possible, by working alongside your scheduling tools
ScheduleReader™	Schedule Reader is a **cost-effective XER viewer** for project schedules created with Oracle® Primavera P6. Primavera Reader is a cost-effective tool, which highly improves the performance of the users while reducing project costs
@RISK Advanced Risk Analysis for Spreadsheets	Palisade @Risk, Risk management tool which can be used to do Risk Management on Cost, Time and Resources. @ Risk helps in easy modelling of the Risks and its output.

InfinityPMC Offering for Corporate Customers

- Infinity PMC offers hands on training on the following
  - P6 – Basic and Advanced training
  - CostX- Quantity Surveying and Cost estimation.
  - PMP-Preparatory course
  - Risk Management Courses
- Professional Services
  - Implementation services
    - Product Implementation
    - Project Implementation
  - Scheduler Services
  - Quantity surveying and Cost Estimation services.

Oracle Primavera p6 training

P6- Basic and Advance training

➢ This course will enable candidates to help understand the basic and advance functionality of the Primavera P6 software and help them in planning and monitoring simple and complex projects using P6.

➢ The advance topics will enable the candidates to handle different complex situation in the project by using tools and functionality like global change, duration types, crashing and fast tracking the project etc.

➢ Overall the above courses on Primavera p6 will help the candidates in handling the project using Primavera application successfully.

PMP-Preparatory course

- ➤ **This PMP Preparatory course will be delivered by a PMP with industrial experience.**
- ➤ **This will help the candidates to gain knowledge on the PMBOK process and the knowledge areas as mentioned in the guide.**
- ➤ **They will get the required 35 PDUs and they will be prepared for the exams by taking up questions at the end of each chapter.**
- ➤ **They will gain knowledge on the Project Management Concepts.**

CostX-Quantity Surveying and Estimation

➢ **Candidates will have a hands-on training on how to do cost estimation using CostX.**

➢ **Candidates will be taken through the different estimation techniques**

➢ **They will be made aware of the 3D/BIM estimations.**

➢ **Concepts and techniques around the Cost estimation process and Rate Analysis will be taught.**

➢ **The course will help Engineers do their 2D, 3D take off and cost estimation in a systematic manner and reduce the time they spend on changes and revisions both at the drawing level and also at the costing level.**

Learning outcome:

Engineers and Consultants will be using CostX to do their Quantity take off from 2D and 3D models and combine that with the costing factor to start delivering BIM Solutions to their organisations.

Risk Management training

➢ **Concepts of risk management will be taught.**

➢ **Knowledge on Risk modeling in various scenarios will be shared with the participants.**

➢ **The 6 process of Risk Management will be covered and also the risk response planning will be taught.**

➢ **Practical usage of the risk management in projects will be discussed with the participants.**

Implementation services-Product Implementation

➢ Setup the Project Group (s) to run on the LAN/WAN
➢ Set-up Security features
➢ Develop and enter coding structures including
➢ EPS, and OBS
➢ Activity Codes
➢ Calendars
➢ Resources (RBS)
➢ Cost Accounts (CBS)
➢ Create Users, Define security profiles
➢ Assign Users according to the security profiles and also the OBS elements.
➢ Project Codes
➢ Admin Categories and Preferences
➢ Creating Role Tree
➢ Creating resource Codes

Implementation- Project Implementation

- ➢ **Creating Project Calendars**

- ➢ **Creating Work Break down structures as per the contract document**

- ➢ **Creating the activity network along with the steps**

- ➢ **Allocating Budgets at WBS levels**

- ➢ **Defining Expenses Categories**

- ➢ **Create & revise project plan by using primavera.**

- ➢ **To tie-up all documents related to a project in project control folder.**

- ➢ **To create planning support repository which will consists of documents related to standard templates of resources, risk & effective mitigation strategies, learning from other projects, other historical data etc.,**

- ➢ **To create project profile - Name, type, capacity, mode of funding, location, major milestones, technical details, financial details, etc.,**

- ➢ **To index and categorize proposals for new projects / schemes.**

- ➢ **To track deliverables against Architects / PMC / Contractor, leading to respective contract closure.**

- ➢ **To update physical and financial progress of the work.**

Scheduler services

- Preparation of the required schedule

- Define WBS (Work Breakdown Structure) in line with requirement.

- Define Activities with duration.

- Define network logic through relationships.

- Filtering.

- Define and assign resources and utilization in line with requirement.

- Define required reports.

- Importing the existing data from MSP(Suitable MSP version to be provided by)

- The above scope will be executed according to the software limits and capability. If any deviation in the scope then it has to be discussed and agreed mutually

- Development of Progress monitoring system and input sheets to update progress.

- Define earning rules, assign % weightage to activities.

Partial List of ongoing/completed projects

- ➢ L&T Construction - Infrastructure projects
- ➢ K Raheja Corp – Commercial Buildings
- ➢ Kudankulam Nuclear Power plant – Power plant construction
- ➢ IRCON – Railway project
- ➢ GDCL- Ahmedabad Metro rail Project
- ➢ FLSmidth- Cement Projects and Erection commissioning Projects
- ➢ Tata Projects - Infrastructure projects
- ➢ Indian Institute of Technology(IIT) – Development of Project management
- ➢ Power Mech Projects- JSW, Dolvi and AMTZ Project, Vishakhapatnam.

Solution for Educational Institutions

ORACLE WORKFORCE DEVELOPMENT PROGRAM	**Establishing Oracle Work force development center at Institutions and Universities.Developing curriculam based program with certification course from oracle**
ORACLE PRIMAVERA	Supporting Institutions/Universities for setting up of Project management laboratory. Developing customised program on specific domain like civil engg, mech engg, Ship building,Oil and Gas etc
cost	Supporting Institutions/Universities for setting up of Quantity Survey/cost Estimation laboratory. Delivering customised program for students and faculties on developing the digital estimation skills and BIM

Partial list of Institutions Where we are working for Primavera and CostX

Institutions Tamil Nadu	Institutions karnataka
AMET University, Chennai	NMAM Institute, Mangalore
Ramco Institute of technology, Rajapalayam	Saptagiri College of Engg, Bangalore
PSG College of Technology, Coimbatore	Bapuji Institute of Engineering & Technology
Kongu Engineering College	Reva University, Bangalore
Sethu Institute of technology	SIT, Tumkur
Kumaraguru College of Technology	JSS University, Mysuru
Crescent Institute of Science & Technology	Manipal Academy
Dr.N.G.P.Institute Of Technology	The National Institute of Engg, Mysuru
Thiagarajar College Of Engineering	Dayananda Sagar Academy, Bangalore
AAA College of Engineering & Technology	Guru Nanak Dev Engineering College

Partial list of Institutions Where we are working for Primavera and CostX

Institutions Maharashtra	Institutions Delhi
IIT Bombay	Noida Institute of Engineering & Technology
College of Engg , Pune	RICS Amity University
RICS Amity university	
Institutions Gujarat	
CEPT University, Ahmedabad	
PDPU, Gujarat	

InfinityPMC's association with Oracle

➢ **Oracle University is an educational wing of Oracle Corporation which enables students and Institute to develop the latest skills and technologies of Oracle's offering in Industry.**

➢ **Oracle being a technology company works closely with many fortune companies on developing IT and customised solutions which satisfies the global customers business needs.**

➢ **Oracle University offers software, training and certifications which helps the students to get better opportunity in Industries**

➢ **Oracle Primavera P6 is an acquired product which is serves the Infrastructure Industry and Project management solutions. InfinityPMC being a Project management experts, in association with Oracle University establish the Work force development centres in Universities and Institutes.**

➢ **We are working closely with more than 50+ institutes in India and having a plan of expanding our offerings to all regions of India.**

- We organise regular FDP programs at Institutes for creating the awareness of Project Management and Primavera P6/CostX opportunities in the market

- Help institutes for Establishing Project management centers where students and faculties get real time project experience.

- Guest lectures are arranged on regular intervals from major clients

- Developing Soft skills for Students and motivating them for Oracle certifications.

- Working with Oracle University team on developing the curriculum based on the new versions and features

- Our trainers are Oracle and Costx certified trainers with PMP.

Thank you
