

Indian Concrete Institute, Bengaluru

Bentley Systems

INVITATION FOR INDUSTRY INSTITUTE INTERACTION SERIES

ICI-BLC and Bentley Systems cordially invite all the HOD's and

Faculty Coordinators of ICI Student chapters

Date Saturday, 11-03-2017 Time 6.00PM Venue

Bangalore City Institute, No. 8, Pampa Maha Kavi Road, Opp. Makkala Koota Park, Shankarapura, Bengaluru-560004

INTEGRATED DESIGN APPROACH SAVES TIME AND MONEY

The Civil Engineers for the present and future should have special skills and specific competencies. The engineering colleges are trying to reduce the gap existing between industry and academia by offering trainings and special courses. In spite of all these efforts the employability of the graduates coming out of the institutions is not up to the expectations of the industry. Indian Concrete Institute, Bangalore Centre will strive to reduce the gap between industry and academia by interactions with the industry experts. Focus on quality in all the areas is the need of the day. To facilitate this, we have formed focused KBC working groups. These working groups will be functioning as per the guidelines of the advisory Board.

Bentley Systems has joined hands with ICI Bangalore Centre to promote best practices. In this connection **Bentley Systems** is hosting an Industry-Institute Interaction Program.

Bentley Systems is a software development company that supports the professional needs of those responsible for creating and managing the world's infrastructure, including roadways, bridges, airports, skyscrapers, industrial and power plants as well as utility networks. Bentley delivers solutions for the entire lifecycle of the infrastructure asset, tailored to the needs of the various professions – the engineers, architects, planners, contractors, fabricators, IT managers, operators and maintenance engineers – who will work on and work with that asset over its lifetime. Comprised of integrated applications and services built on an open platform, each solution is designed to ensure that information flows between workflow processes and project team members to enable interoperability and collaboration

Agenda:

- Welcome
- Advanced Software Applications in Civil Engineering by SAGA INFOTECH
- Long term engagement programs with Bentley Systems
- Vote of Thanks

.....Program followed by dinner.....
