TECHNICAL EVENING LECTURE

Indian Concrete Institute-Karnataka Bangalore Centre(ICI-KBC) in association with Association of Consulting Civil Engineers (India), Bangalore Centre, and Bangalore Institute of Technology is organizing a lecture for Fellow Members, Engineers and Builders on ***“Sustainable Concretes with Metakaolin and High Performance admixtures “*** as part of the Technical Lecture series.

Speaker : Mr.V.R.KOWSHIKA
Date : 11.08.2011,Thrusday.
Time : 06.30 – 7.30 PM **6:00 – 6:30 PM High Tea**
Venue : Bangalore Institute of Technology K.R. Road, V.V. Puram Bangalore.
Admission : Free

ABOUT THE SPEAKER

Mr.V.R.Kowshika is the CEO of Ecmas Construction Chemicals Pvt Limited and an accomplished Civil Engineer cum Concrete Technologist with over 22 years of experience in the Concrete Technology and related fields.

A BRIEF ON THE Topic of discussion:

The use of secondary cementitious materials(SCM) like Flyash and Slag(GGBS)in concrete making is being widely accepted and has become very common during the recent past on account of sustainability.Metakaolin is another new cementitious material known for its very good cementitious properties and advantages.The technical lecture will bring a lot of insight into the sustainable advantages of using this mineral admixture for concrete making in future.

It will be an ideal opportunity for the practitioners and professionals to be exposed to the use of newer cementitious materials.

All are Cordially Invited
