ABOUT THE LECTURE

Indian Concrete Institute (ICI) Bengaluru Centre is pleased to invite you to a thought-provoking technical evening featuring an enlightening lecture by Prof. R.N. Iyengar, a luminary in the field of Civil Engineering and Structural Mechanics. Prof. Iyengar will delve into the profound wisdom embedded in ancient Indian constructions, showcasing how their holistic design principles, ingenious techniques, and sustainable solutions continue to hold relevance for the modern construction and infrastructure sectors. The lecture will present through a few examples, some largely unknown innovations of our ancient engineers in executing large projects, constructing monumental structures and in developing sustainable infrastructure.

This session promises to be an eye-opener for practicing Civil Engineers, offering fresh perspectives and practical insights drawn from the rich legacy of ancient Indian engineering marvels.

ABOUT THE SPEAKER

Prof. R. N. Iyengar B.E., M.Sc(Eng), Ph.D., (b. 1943) is renowned for his contributions to Earthquake Engineering, Random Vibrations, Mathematical Modeling, Structural Dynamics and Nonlinear Systems. As faculty at the Indian Institute of Science from 1969 till his retirement in 2005 as KSIDC Chair Professor in Civil Engineering, Iyengar has published 200 technical papers, reports, general articles and books. He is Fellow of the Indian National Academy of Engineering, Indian Academy of Science, National Academy of Science and the Alexander von Humboldt Foundation, Germany. He held the Distinguished Schmidt Chair at the Florida Atlantic University, USA in 1995. He was Director of CBRI-CSIR (1994-2000); Raja Ramanna Fellow of Dept. of Atomic Energy (2005-10). After establishing the Centre for Disaster Mitigation with a unique Fire Research Lab, he is currently Distinguished Emeritus Professor and the Director of the Centre for Ancient History & Culture at the Jain University.
