

**Indian Concrete Institute,
Bengaluru**

SK STEEL TECH | India

*INVITATION
FOR
INDUSTRY INSTITUTE INTERACTION SERIES*

*ICI-BLC and SK STEEL TECH-India cordially invite all the HOD's and
Faculty Coordinators of ICI Student chapters*

Date	Time	Venue
Saturday, 11-02-2017	6.00PM	Bangalore City Institute, No. 8, Pampa Maha Kavi Road, Opp. Makkala Koota Park, Shankarapura, Bengaluru-560004

The Civil Engineers for the present and future should have special skills and specific competencies. The engineering colleges are trying to reduce the gap existing between industry and academia by offering trainings and special courses. In spite of all these efforts the employability of the graduates coming out of the institutions is not up to the expectations of the industry. Quality faculty, lack of Infrastructure, exposure to industry are some of the reasons. With systematic training of faculty and students from the beginning of the professional course and regular interactions with the industry and professional associations, the problem of employability may be addressed. Motivation, practical oriented teaching-learning methodologies, original project works, proper mentoring will make a difference in the present status of employability.

Indian Concrete Institute, Bangalore Centre will strive to reduce the gap between industry and academia by interactions with the industry experts. Focus on quality in all the areas is the need of the day. To facilitate this, we have formed focused KBC working groups. These working groups will be functioning as per the guidelines of the advisory Board.

SK STEEL TECH, India has joined hands with ICI Bangalore Centre to promote best practices. In this connection SK STEEL TECH, India is hosting an Industry-Institute Interaction Program.

Agenda:

- Finalisation of Student chapter activities for Concrete Deminar
- Quality Council of India's **R M C P Certification Scheme**
- Distribution of **BIS Code posters** to student chapters
- Presentation by SK STEEL TECH, India
- Long term engagement programs with SK STEEL TECH, India

.....Program followed by fellowship and dinner.....
