## World Earth Day Information and History

World Earth Day is celebrated every year as an annual event by the people all across the world on 22<sup>nd</sup> of April in order to increase the awareness among people about the environment safety as well as to demonstrate the environmental protection measures. First time, the world earth day was celebrated in the year 1970 and then started celebrating annually on global basis by almost 192 countries.

World Earth Day observance was started to celebrate as an annual event to get national support in order to better take care of the environmental safety by solving its issues. In 1969, there was a peace activist of the San Francisco named John McConnell who actively involved in starting this event and proposed a day to get together for the environmental safety.
